

A practical tool for one of life's most complex journeys

- Let everyone know that the **CARER** Tool is now endorsed to be HCP funded by Department of Health and Aged Care
- **Why:** Dementia is cited 37 times in the new Strengthened Standards. We care that our clients have the tools to live well and make their own choices based on their individual needs.
- **What:** A digital tool that helps to guide their individual journey through early, middle and late stages of dementia. It's not training, it empowers and builds skills to navigate.
- **How:** It provides bite-sized, practical and evidence based State and National specific resources, including information, forms, links etc. on important topics, such as Understanding Dementia, Advanced Care Planning, Managing in the Early Stages, Care Strategies, Driving, End of Life Care and much more.
- Client Journey can be used for Care Reviews and Accreditation
- **It's simple to start:** we are going to include the Tool in our processes and checklists. What we need you to do:
 1. Identify the Need and Agree in Client Care Plan
 2. Provide MyDC client name, carer name and email address
 3. If clients need assistance there are Videos, Tutorials and Demos available. Lots of regular contact and prompts help guide them along the way.
- Thank you for making a difference to someone living with dementia!

A practical tool for one of life's most complex journeys

HOW DOES IT WORK?

(Explain to a family on how it works)

1. Register an account
2. Answer 5 simple questions on their name, carer relationship, dementia type & stage, and current needs
3. Be gently step-through their whole journey with simple checklist of useful info, videos & family tips (so they are not alone) on where to go, what to do and how to be empowered to live well.

SHARE AND CARE

- Talk to your team today
- Share with a family by using QR code or link below
- Help make dementia care great!

WHY SHARE THIS?

- 70% of people with dementia live at home.
- Having the right information at the right time is crucial.
- Planning for the future is key
- No journey is the same
- Learn new skills on the go
- Dignity and respect always
- Now funded through HCP
- Caring for someone with dementia is a 24/7 job
